I understand- it's a busy time for Groundwork right now. I had several meetings today and mentioned that a priority list was being developed, so it's on EPA radar. Also pitched idea of the interactive training tool to Office of Research and Development staff.

Thanks Alanna

No problem. Also, I won't be able to send you the community need request today as I promised---we are currently in the process of finalizing logistics for our fundraising and my hands are a little tied up today. Allow me 2 more days to get that to you.

Thank you!
